City of Fall River
Massachusetts
Office of the Mayor

PAUL E. COOGAN
MAYOR

Honorable Members of the City Council,

The Fiscal Year 2027 Proposed Municipal Budget is hereby submitted for your review and approval. The General Fund is being submitted for appropriation in the amount of \$484,455,787, which is a 6.2% increase from the Fiscal Year 2026 Revised Budget. The Emergency Medical Services (EMS) Enterprise Fund is being submitted for appropriation in the amount of \$18,038,739, which is an increase of 9.4% from the Fiscal Year 2026 Revised Budget. The Sewer and Water Enterprise Funds have previously approved for appropriation with a combined total of \$48,559,989, which is an increase of 1.2% – the approved orders and supporting detail has been included.

The total General Fund increase can be attributed to a few very specific categories: State mandated Net School Spending requirements, Solid Waste expenses, the Diman Regional Debt Assessment, Health Care, the annual Pension assessment, and cost of living adjustments to salaries and expenses. These increases are being added to the base budget and will at a minimum be maintained, however we are expecting more normalized increases in these lines in the subsequent fiscal years.

The revenue projected for the FY2027 General Fund Local Receipts is about 87% of the Projected FY2026 receipts, in line with DOR's recommendation of no more than 90% of the previous year's actuals. Through State Aid, at the Senate's Proposed budget, we are anticipating an 8.1% increase from the FY2026 budget.

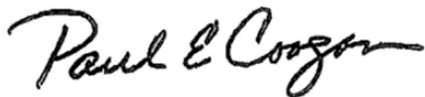

Prior to this fiscal year, the goal was to increase the Free Cash certification to rebuild our General Fund Stabilization balance. Great progress has been made, with a current balance of \$20.7M, and anticipating ending the year with a \$23.5M balance. While there is still more work to be done to meet the State and National standards set for General Fund Stabilization balances, we feel it is at a comfortable enough level to shift our focus to allocating funds to these other large financial matters for the next several fiscal years. By returning to zero-based budget practices, while continuing to keep capital expenditures and one-time purchases out of the General Fund budget and being less conservative on revenue budgets

– we are anticipating Free Cash Certifications return to previous values of \$3-8M after FY2026. Given the level of uncertainty surrounding Federal funding, which would also impact State funding local municipalities, the Administration and Finance team is committed to leaving the current General Fund Stabilization balance at this level, only utilizing the funds as a last resort option. In turn, it is our intent to use future surplus strategically for capital expenditures, rebuilding the Employer Health Care Trust fund balance, and to cover the increasing State mandated Net School Spending requirements, Solid Waste expenses, the Diman Regional Debt Assessment, Health Care costs, annual Pension assessment, and cost of living increases. We are committed to working hard on improving the City’s financial plans and practices with the City Council, to not just keep the City afloat but to keep us moving forward.

Through this Budget we reaffirm our continued commitment to education, public safety, and serving the needs of the citizens of Fall River. This Budget represents a collaboration between all City Departments and our Finance Team to review budgetary requests and maintain an increase in the Tax Levy of not more than 2.5%.

Budget development is an important process that takes much time, analysis, coordination and team work to get to a final product. We thank the City’s Department Heads, Division Managers, and School Department leadership, who have worked seamlessly with the Finance Team and Administration to make this possible while still providing their daily services to the community.

Best Regards,

A handwritten signature in black ink that reads "Paul E. Coogan". The signature is written in a cursive, flowing style.

Mayor Paul E. Coogan

BE IT ORDERED, that the Annual Budget for fiscal year 2027 from various funds, is \$484,455,787 of which the amount of \$471,316,384 be raised from ordinary revenue and municipal receipts for appropriation as follows:

A. for the purpose of GENERAL GOVERNMENT		
1. from the General Fund, for MAYOR, Salaries	\$	314,803
2. from the General Fund, for MAYOR, Expenses	\$	20,250
3. from the General Fund, for CITY COUNCIL, Salaries	\$	258,664
4. from the General Fund, for CITY COUNCIL, Expenses	\$	170,700
5. from the General Fund, for CITY CLERK, Salaries	\$	381,990
6. from the General Fund, for CITY CLERK, Expenses	\$	35,875
7. from the General Fund, for ELECTIONS, Salaries	\$	367,638
8. from the General Fund, for ELECTIONS, Expenses	\$	104,300

Free Cash

Free cash is a revenue source that results from the calculation, as of July 1, of a community's remaining, unrestricted funds from its operations of the previous fiscal year based on the balance sheet as of June 30. It typically includes actual receipts in excess of revenue estimates and unspent amounts in departmental budget line items for the year just ended, plus unexpended free cash from the previous year. Free cash is offset by property tax receivables and certain deficits, and as a result, can be a negative number. As a nonrecurring revenue source, free cash should be restricted to paying one-time expenditures, funding capital projects, or replenishing other reserves. The following chart shows the history of Free Cash Certifications for the City of Fall River from Fiscal Years 2020 through 2025. It is important to note that Free Cash from the previous fiscal year is certified in the current fiscal year, i.e. Fiscal Year 2024 Free Cash was certified in October of Fiscal Year 2025.

**City of Fall River
Historic Free Cash Certifications**

Stabilization Funds

Massachusetts communities are permitted by M.G.L. Chapter 40, Section 5B, to set aside money each year to be held in a Stabilization Fund in order to provide for emergencies and unforeseen expenses. The Stabilization Fund is the City's main reserve fund designed to provide financial stability for the City, while improving the City's credit worthiness and flexibility. The following chart shows the history of the Stabilization Fund balance at fiscal year-end from 2020 through 2025, with the estimated fiscal year-end balance for 2026.

**City of Fall River Historic
Stabilization Fund Balance at Year-End**

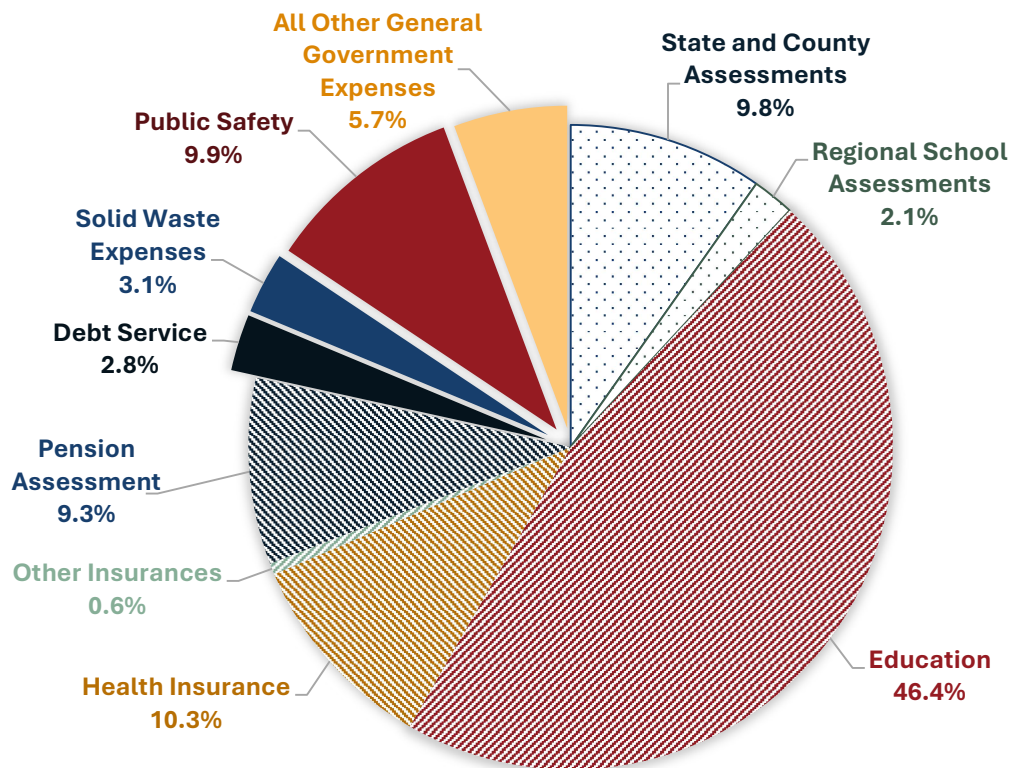

Types of General Fund Expenditures

There are three main types of General Fund expenditures:

- **Fully Fixed Costs:** Expenditures that the City has zero control over having to pay and the amount we pay.
- **Partially Controllable Costs:** Expenditures that the City has zero control over having to pay and have very limited ability to affect the amount we must pay, and some could argue we have no ability to affect the amounts.
- **Service-Level Spending:** The expenditures that the City utilizes to provide and maintain services for this community, including the department’s operating budgets and debt service.

The following pie chart depicts the FY2027 General Fund budget by the major expenditure categories and how they fall into each of these defined types.

State and County Assessments come from the Commonwealth’s Cherry Sheet process annually. It includes items like County Tax, Mosquito Control, Regional Transit, and Chart and Choice School Sending Tuitions. These amounts are set during the State’s budget process and are paid as a reduction to our State Aid deposits.

Regional School Assessments come to the City of Fall River from Bristol County Agricultural High School and Diman Regional Vocational Technical High School based on the number of students enrolled each school year. These assessments include their school operational, transportation, and debt budgets.

Education, within this chart, only includes the School Departments operational and transportation budget. The other administrative costs, like their portion of health insurance and pension assessment, are included in those respective categories. Education is included in the limited discretion category due to the Net School Spending mandates from the State that we could technically choose not to meet in a fiscal year, however we would be required to make it up in another.

Health Insurance is an employee benefit that the City is required to offer to all full-time employees. It falls into the limited discretion type given that we have control over the insurance programs offered but limited to no control over the costs incurred through the utilization of the program.

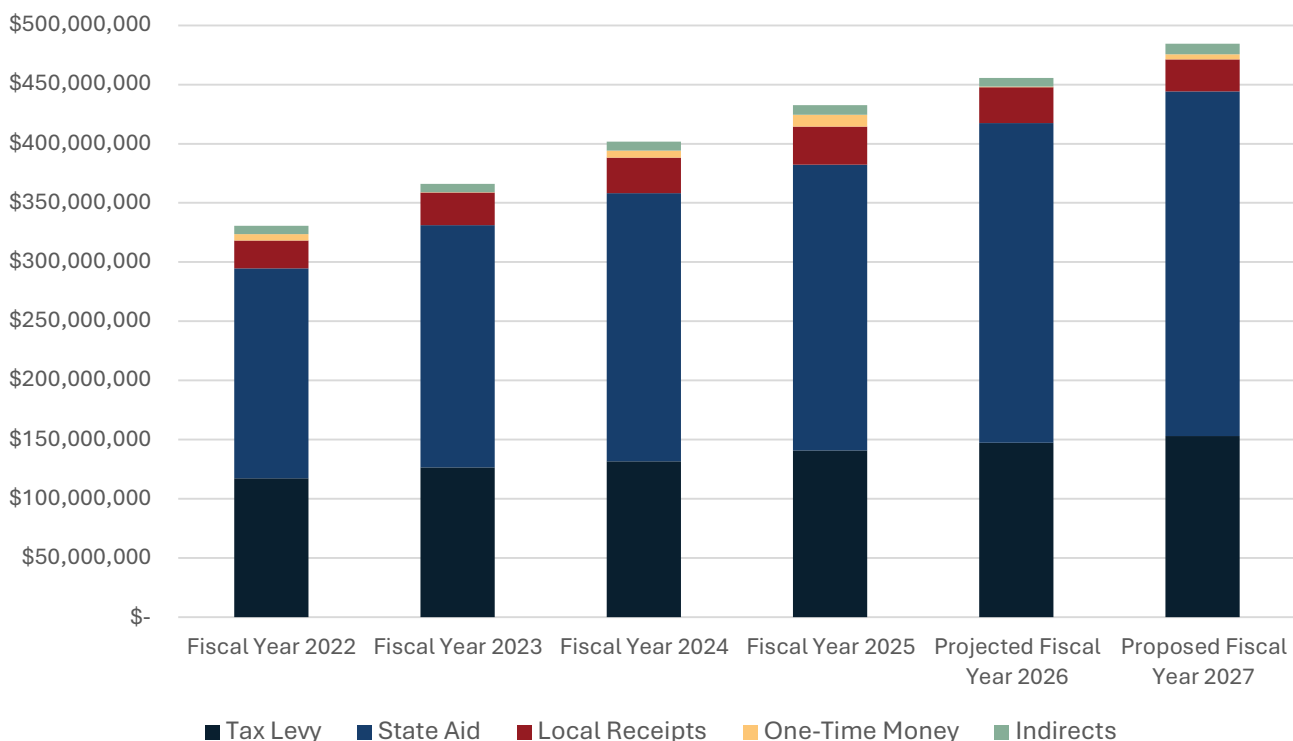

Other Insurances includes property insurance, limited liability insurance, worker’s compensation, unemployment payments, and Medicare. Worker’s compensation, unemployment payments, and Medicare we are mandated to pay or provide. While we have a choice to have property insurance and liability insurance, we know the costs that could be incurred by not having it are far greater than the cost to have it. Given the mixed requirements in this category, and the repercussions of not incurring some of these expenses, we feel we have limited discretion over these expenditures.

Pension Assessment is sent annually by the Fall River Contributory System for the City’s portion of the systems unfunded liability. The State has mandated that the unfunded liability be fully funded by 2035. The City has limited discretion over this item given our positions on the Board that oversees the System that manages the funds and sets the assessment schedule, as well as the fact that we can affect how much we are adding to or reducing the liability with annual COLA’s for retirees, the number of employees paying into the system, and the timing of our annual liability payments. While all of these items we can affect have a nominal effect on the size of the unfunded liability, we have some level of choice to make an impact.

Debt Service is for capital projects or items the City has decided were necessary but were unable to fund with the annual budget, so short or long-term debt is taken out to cover the costs over 5 to 30 years of payments. Although making the payments on the debt annually is not discretionary, taking out debt and the amount of debt is issued is a discretionary choice made by the local government.

Solid Waste Expenses, Public Safety, and All Other General Government Expenses include all General Fund departments operational budgets, excluding School. These departments are here to maintain local infrastructure and public works, keep the community safe and healthy, provide services around meeting basic human needs, and manage the finances required to deliver on these items. While the City providing many of these services is not discretionary, how we provide them has discretion.

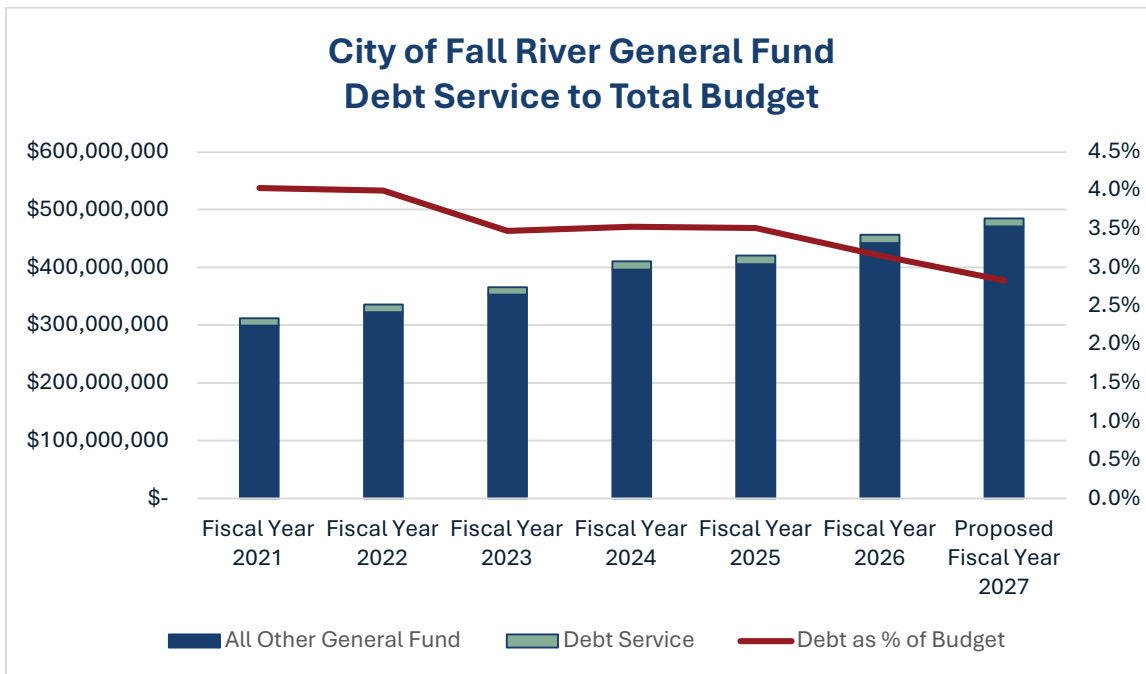

Revenue Source by Category

Revenue Source	Tax Levy	State Aid	Local Receipts	One-Time Money	All Other
FY2022 Actuals	117,344,311	177,287,320	23,666,098	5,193,061	7,053,529

Projected Fiscal Year 2026	147,120,257	270,273,186	30,396,000	600,000	7,191,921
Proposed Fiscal Year 2027	152,975,333	291,413,470	26,927,581	4,350,000	8,789,403

Debt Service to Total Budget

Debt service expenditures include principal retirement, interest and other fiscal charges made in the current fiscal year. The ratio of debt service expenditures as a percentage of total governmental fund expenditures can be used to assess service flexibility with the amount of expenses committed to annual debt service. As the ratio increases, service flexibility decreases because more operating resources are being committed to a required financial obligation. In other words, the more a government spends on financing its debt, the less it will have available to fund ongoing services. The following shows the General Fund’s historical debt service as it relates to the total budget.

Fiscal Year 2026 Budget Process Timeline	
Dates	Event
February 27, 2026	FY2027 Budget Kick-Off sent via email
March 30, 2026	FY2027 Budget Submission #1 due including: expenditure and revenue budgets in Central Budget Entry, any enhancement requests, and any updates to the Department Overview
April 10, 2026	FY2027 Budget Submission #2 due including: FY2027 Budget Workbook, FY2026 Projected Actuals for Budget Book and Personnel Listing, and Central Budget Entry report
April 6 – 17, 2026	One-on-One Department Budget Review with Finance Team
April 21 – 30, 2026	Final Department Budget Review meeting with the Mayor
End of May through June	Budget hearings with City Council
July 1, 2026	Fiscal Year 2027 begins

Budget Preparation Calendar

The City of Fall River's 2027 Fiscal Year begins on July 1, 2026 and ends on June 30, 2027. The City initiated its budget process in February 2026. The City returned to utilizing zero based budgeting to develop its annual budget in Fiscal Year 2026 and continued this year. The Chief Financial Officer, City Auditor and Purchasing Agent met with each individual department to discuss their budget submissions to review for accuracy and their requested enhancements. The Finance Team reviewed the budget submissions in total with the Administration before beginning meetings with each department, the Administration, and Finance Team. Utilizing the Senate's budget and the required net school spending determined by the Department of Elementary and Secondary School, the School Department prepares their operating and transportation budgets to include within the City budget. The Fiscal Year 2027 budget is then completed and delivered to the City Council 45 days prior to the end of the fiscal year giving the City Council Finance Committee time to have hearings with the Finance Team and the individual departments to discuss the document.

City Council Review

By law, the City Council can only reduce an appropriation. Without a recommendation from the Mayor, the Council may not make any additional appropriations. If the City Council fails to act on any item in the proposed budget with 45 days, that item takes effect. The City Council appropriates Net School Spending (NSS) to the School Department; however, the School Committee retains full authority to allocate the funds appropriated. From that point, the Superintendent is responsible for managing the budget and overall school operations.

Budget Amendments

- **Internal Transfers** – Transfers within the budget categories of Personal Services and Other than Personal Services can be completed by the City Auditor upon request of a department head if sufficient funds are available.
- **City Council Transfers** – If funds are being transferred between budget categories (i.e., from personal services to other than personal services), a request from the Mayor to the City Council must be made once it is determined by the City Auditor and the requesting department that funds are available to transfer.
- **Mayoral Budget Requests** – Upon a determination that additional funds are required, the Mayor can request to increase the appropriation with an identified revenue source to address a specific need. The City Council must approve the request.

Budget Monitoring Process

The City Auditor reviews and monitors all expenditures and revenue accounts during the fiscal year to ensure a balanced budget.

Fund Descriptions

The City of Fall River's annual budget is organized on a fund basis, with each fund considered a separate accounting and reporting entity. Budgeted fund types consist of the General Fund, three enterprise funds; Emergency Medical Services, Water and Sewer. Each of these funds are considered major funds within the City's financial reporting.

General Fund

The General Fund is the primary operating fund for all governmental activities. The General Fund is supported by a combination of local tax revenue, fees, charges for service and outside funding.

Enterprise Funds

The Emergency Medical Services fund is used to account for fees for ambulance services. The Water and Sewer Enterprise funds are used for utility usage by our residential and commercial customers.

Stabilization Funds

The City's Stabilization Fund created in accordance with M.G.L. c. 40, §5B is intended as a reserve account to provide emergency funds for use in a major or significant event, such as natural disaster, an uninsured loss, damage to a capital asset, or prolonged decrease in revenue. Although a general stabilization fund may be appropriated for any lawful purpose, withdrawals should be limited to mitigating emergencies or other unanticipated events that cannot be supported by current general fund appropriations. A community's target balance for a general stabilization fund varies by budget, experience, and other available reserves. A recommended goal is typically in the five to seven percent of the current operating budget range. A two-thirds vote of the City Council is required to appropriate money from the stabilization fund. For the purposes of the annual budget, there are no amounts currently proposed to balance the budget.

The City of Fall River maintains five Stabilization funds, one for the General Fund, one for each of the Enterprise Funds, and the newly created Diman Stabilization Fund.

Other Funds

In addition, to the previously described funds, the City departments have access to non-budgeting capital project and special revenue funds. These funds are supported by debt services, federal and state grants as well as fees generated on MLG 53 E ½ (revolving funds) etc. The City also maintains an internal service fund to support the City's health insurance program.

Mission: The Mayor's Office focuses on providing effective leadership, fostering community engagement, and promoting the well-being of the city and its residents. This includes prioritizing key areas like economic development, public safety, education, and infrastructure.

Description: The Mayor's Office is the central executive office of the City government. The Mayor fulfills political, ceremonial, and community leadership functions on behalf of the City while serving as the Chairperson for both the City Council and the School Committee. Focused primarily on assisting residents, the Mayor's Office responds directly to members of the public seeking information or seeking to address concerns regarding municipal government and services. The Mayor's Office serves as the City liaison between federal and state agencies, as well as community groups and citizens.

Mission: The Mission of the Elections Department is to impartially conduct and administer all municipal, state, and federal elections as well the annual municipal census pursuant to the General Laws of the Commonwealth and Code of Massachusetts Regulations. This commitment extends to ensuring the smooth operation of various electoral processes, including the management of the municipal voter registry, absentee and mail-in ballots, census, certification of petitions and nomination papers, campaign finance reports, voting technology/equipment and recount procedures.

Description: The Elections Department oversees and maintains local voter registration and municipal census records for the Secretary of the Commonwealth's Voter Registration Information System (VRIS). The department has the statutory responsibility to process nomination papers for municipal, district and statewide office, initiative petitions, Absentee and Early Voting by Mail Applications & Ballots. Prior to each election, the department tests and prepares voting equipment for each polling precinct and training of all election workers. At the start of every calendar year, the Elections Department conducts the Annual Municipal Census in order to update the City's residential street listing and administers municipal campaign finance reporting. In FY2027, the department shall prepare for the upcoming State Primary and Biennial State Election by processing voter registrations, Absentee and Early Vote-by-Mail Applications, updating the municipal census and the Inactive Voters List.

Mission: We at the City of Fall River’s Department of Veterans’ Services are committed to assisting Veterans and their dependents with the concern and compassion they deserve. This Department is a Massachusetts public assistance agency as defined by Chapter 115 of Massachusetts General Laws. Although administering Chapter 115 benefits is the primary objective of the department, we also provide many other services to Veterans who are not seeking financial assistance. Veterans who served on active duty could be eligible for temporary financial and/or medical benefits with the Veterans’ Benefits Department of Fall River.

Description: Veterans’ Benefits is a financial assistance office for needy veterans and their dependents who are out of work due to illness or injury, or who have been laid off from their jobs and are awaiting unemployment benefits, workers compensation, Social Security or other benefits. Although administering Chapter 115 benefits is the primary objective of the department, we also provide many other services to Veterans who are not seeking financial assistance. The Veterans’ Services office is a one-stop location for all veterans’ needs. Office services include:

- Annuities | Awards & Medals | Burial Information | Chapter 115 | Benefits | Education | Elder Services | Employment | Flags & Markers | Financial Assistance | Graves Care | Housing | Medical Assistance | Pensions | Prescription/Medical Assistance | Record Retention

The office serves as a liaison between veterans and the State and federal veterans' agencies. Additional information is also available by visiting the websites for the State’s Veterans’ Services as well as the Veterans Administration.

Mission: The mission of the Fall River IT department is to empower our City with technology that will improve collaboration, efficiency, and reliability. We provide secure, reliable, and accessible digital services that enhance the quality of life for all residents, streamline government operations, and promote transparency and efficiency.

Description: The Fall River IT department manages the City’s data, network, and communication systems, ensuring that all digital operations run smoothly and efficiently. A core responsibility involves enhancing cybersecurity measures to safeguard the integrity and confidentiality of the City's data against potential threats. This ensures that personal and sensitive information is protected from unauthorized access and breaches, thereby maintaining the community's trust and upholding the standards of privacy and data protection. The department looks for technological innovations, leveraging new tools and approaches to enhance public services and modernize existing processes.

Collectors

Mission: The mission of the Director of Financial Services is to provide the City with the highest quality public services in the areas of financial management, budgeting, fiscal planning, and financial reporting to ensure financial integrity, maintain public interest, and promote accountability in government.

Description: The Office of the Director of Financial Services is the umbrella department under which the financial departments of the City are organized. The Director of Financial Services (CFO) ensures coordination of the City's financial processes. The Director oversees the operating budget presentation and monitoring as well as the preparation and monitoring of the City's capital budget. The Director of Financial Services administers all the City's financial activities. The following departments report to the Director of Financial Services: City Treasurer-Collector, City Auditor, Analysis & Compliance, Purchasing and City Assessor. The Director is responsible for the City's internal controls over financial reporting and oversees the development and implementation of the internal control policies and procedures in all City departments.

Mission: The Procurement Department is designed to promote high quality, value engineered, fair, competitive and transparent opportunities for contracting supplies and services through collaboration amongst City departments and outside vendors. We work to streamline our processes to increase opportunities to provide goods and services in the best interest of the City while adhering to local, State and Federal laws.

Description: The Purchasing Department develops best practices that promote inclusive and transparent relationships between our contractors, suppliers, and vendors by encouraging active participation in procurement throughout the solicitation process. The Purchasing Department is responsible for coordinating the acquisition of quality products in a cost-effective manner, managing all departmental purchase orders, and negotiates terms and executes all vendor contracts.

Mission: The mission of Assessment Administration is to value real and personal property efficiently, fairly, and accurately, in accordance with the laws of the Commonwealth of Massachusetts; to administer motor vehicle excise, exemption and abatement programs; and to address concerns of members of the public quickly and courteously.

Description: The Assessor’s Office is responsible for the administration of all laws and regulations regarding property tax assessment. The Assessor’s, as required by Chapters 59, 60A, 61, 61B, 121A of the Massachusetts General Laws and various Acts of the Legislature, perform the appraisal of approximately 22,000 parcels of property. This includes residential, commercial, industrial, utilities and personal property. The Assessor’s processed over 88,111 excise tax bills on motor vehicles and boats for the most recent calendar year. The Assessor’s established the assessed value of property each fiscal year. The Assessor’s handle requests for abatements and exemptions through the avenues prescribed by the Massachusetts Legislature. This Department is also responsible for preparing cases for hearing and defending property values before the Massachusetts Appellate Tax Board and for reporting all sales within the City to the Massachusetts Department of Revenue. The Assessor’s Office works daily with the inquiries of taxpayers, planners, developers, builders, real estate professionals and others. The Assessors coordinate the revaluation process to comply with the laws of the Commonwealth and to achieve a sound base for fiscal planning within the City.

Mission: The mission of the Treasurer is to serve in accordance with Massachusetts General Law as a responsible custodian of the City’s funds, deposits, investments and disbursements, to collect all municipal funds and to provide friendly, efficient service to every customer doing business with the City of Fall River.

Description: Under the direction of the Director of Financial Services, the primary function of the Treasurer is to preserve, protect and manage the financial resources of the City. The Treasurer is responsible for the collection, disbursement, accurate accounting and prudent investment of all City funds in order to maximize yields while maintaining adequate liquidity and ensuring compliance with Massachusetts General Laws, City of Fall River Ordinances, and any other applicable financial mandates. The Treasurer maintains custody of all municipal funds, including operating funds, stabilizations, trusts, enterprise and investment funds and all other funds not specifically allocated to other agencies by general law or special act. The Treasurer is responsible for negotiating all municipal borrowing (both short and long term) and providing prompt and courteous assistance to the taxpayers and residence of the City. The Treasurer has direct supervision of all personnel in the Treasurer’s Office including the Tax Title function of collecting delinquent tax accounts for the City, establishing repayment agreements, foreclosing and auctioning properties.

Mission: We are here to ensure that all City buildings and grounds are managed with the highest standards and best practices of both the public and private sector, while supporting a safe, effective and esthetically pleasing experience for the citizens and employees of the City. While also working to save and restore our historic buildings with the help of the Historic Commissions, Community Preservation Board, as well as the City Capital Improvement Plan.

Description: The Department of Facilities Maintenance consists of three components: custodial, maintenance and grounds keepers. The Department focuses on maintaining current buildings, construction of new buildings and overseeing capital projects across City Departments. The Department currently controls 37 buildings. Our City is rich in historical structures and some of those structures are City owned. These structures are important to the City and must be treated as an asset and not a liability, which is how a City with financial constraints tends to approach the repairs and maintenance of said buildings. The Department will change that philosophy using a restoration minded approach, capitalizing on the important role that these structures depicted in our past and what renewed role they will have in our future. This process will be expensive and time consuming, but through the efforts of this department our historical structures can become focal points in their respective neighborhoods.

Mission: DCM Streets and Highway Division will provide services to the residents of the City of Fall River while continuing to improve on and add to those services whenever possible, while being mindful of the budgetary impact.

Description: The Fall River Department of Community Maintenance Streets and Highway Division provides a multitude of constituent services which include but are not limited to, asphalt street repair, pothole repairs, sidewalk repair and replacement, street sweeping, community cleanups, brush cutting and landscaping maintenance, and the ever-important snow plowing and snow removal programs. DCM Streets and Highways Division has been able to expand repairs and replacements through use of Chapter 90 aid, Community Development grants, and other grant funds. The division also works with all community neighborhood groups, organizing cleanups and providing assistance for the many cultural events held for the diverse group of residents and religious sects associated with the demographics of our City.

Mission: The Department of Community Maintenance Solid Waste Division is responsible for ensuring that the residents of Fall River have provide a safe and clean environment to both live and operate in.

Description: The Solid Waste Division accomplishes this by participating in organized cleanups, scheduled brush and litter removal operations, inspection and removal of such things as illegal dumping, bulky items left curbside without a scheduled pickup and more. The division is also responsible for oversight of the curbside collection system. The City of Fall River and its contract with the private collections hauler is extremely important and is monitored and controlled by developing and maintaining a strong relationship through communication and cooperation to be sure the citizens of Fall River receive a top quality, efficient, and professional collections system of their solid waste, recycling, and yard waste. In addition, the division also works closely with the Massachusetts DEP to apply for and receive grant funds whenever possible to help offset costs in these areas. The division is also tasked with providing residents the opportunity to dispose of items outside of their scheduled curbside collection day. Allowing for disposal of such items as, yard waste, mattresses, metal recycle drop off, tires, electronics, bulky items, oils and paints, and more. Going forward as the ever-changing solid waste disposal and recycle markets fluctuate, we will continue to strive for the most efficient and cost-effective methods for disposal and or recycling of the waste streams that all communities must cope with.

Mission: The mission of Park Department is to maintain and improve our facilities in order to ensure access for all individuals to City Parks and to provide recreational opportunities for the young, elderly and persons with disabilities and to provide safe timely and efficient recreational services to all citizens of Fall River.

Description: Parks, both passive and active, are a source of pride in the City of Fall River. The Parks Division is responsible for the maintenance of all City parks, summer recreation activities and participating in various civic events like the July 4th celebration. The division maintains 24 parks and playgrounds, approximately 172 acres, 15 miles of median strips, 11 memorial greens & monuments and have now assumed some of the responsibility of maintaining parts of the Quequechan Rail Trail.

Mission: The Cemetery Division is responsible for the care and maintenance of several cemeteries throughout Fall River, including Oak Grove Cemetery, North Burial Ground, and five smaller cemeteries. The division cares for over 100 acres of municipal land through all seasons. Our mission is to provide respectful, peaceful, and welcoming cemeteries that allow for visitors and loved-ones to pay respect to those interred at the City’s cemeteries.

Description: The Cemetery Division of DCM is committed to continuing the improvements made to the operation and equipment within the division over the last couple of years. The cemetery division will continue the task of maintaining several cemeteries throughout the City, including Oak Grove Cemetery and North Burial Ground, the two largest in the City. The Division also looks to improve on its proactive maintenance routine by continuing to remove dead and deceased trees and working with the Board of Park Commissioners and DCM to plant new trees within the cemetery and in the community. In total, these efforts aim to improve the aesthetic appearance of the cemeteries while preserving its historical value.

Mission: Within the Traffic and Parking Division, our mission is to serve the residents of the City by providing accurate information, dedicated assistance, and clear guidance regarding all matters related to traffic and parking. We are committed to educating the public on City parking ordinances, as well as relevant State laws, to ensure that our community remains informed and safe. We strive to build trust and confidence in our services through a professional, courteous, and empathetic approach. By actively listening to residents' concerns and addressing their needs we aim to create an atmosphere where all individuals feel heard and supported. Our goal is to be a reliable and accessible resource for the constituents ensuring that every interaction contributes to a safer, more efficient, and more informed City.

Description: The Traffic and Parking Division is responsible for the City's issuance of parking tickets, collection from meters, processing payments, oversee the operation of two parking garages, issuing parking permits for the garages, as well as the upkeep and maintenance of all the street signs, safety signs, school signs and other miscellaneous signage. The Department deals with requests, concerns and safety issues for parking and other traffic-related concerns. The Department also works with the Police Department on speeding violations, abandoned vehicles and safety issues. We work together with DCM for street repairs, sidewalks or issues with litter. The Traffic Department oversees all the hearing requests on violations. We work to continuously improve and provide information to the public regarding signage, Registry of Motor Vehicle releases, safety issues, events in the City, permits, Handicap applications as well as customer service. The Parking Enforcement unit in the Traffic Department enforces the City's parking regulations with the key objective of improving safety and accessibility for those parking and traveling in the City. During the winter months when a parking ban is in place the Traffic Department work together with the Police Department to maintain compliance with the parking ban. The Traffic Department also has five-member Traffic Board Commission members who meet once a month to review all requests that have been submitted by residents or businesses. The Traffic Department oversees the Crossing Guards, there are 23 schools that require 53 crossing guards.

Mission: The Department of Engineering and Planning is comprised of multiple Divisions, each of which is governed by State Law, Statute, City Ordinance, Rules, Regulations and associated permitting processes.

“Inspired team based constituent service that provides health, safety and growth for the people and earth that surrounds us.”

Description: Provides review and recommendations to several City Departments and Divisions, responsible for the licensing and permitting of Utility Contractors, administers City roadway reconstruction projects, maintains a library of plans, permits and documents related to municipal roadway and related construction projects. The Engineering Division is responsible for planning and overseeing improvements to our City's vital transportation infrastructure. Each year we direct the design and oversee reconstruction of numerous City streets, drainage systems, and sidewalks. The Division oversees all private Drainlayers that work within the City's right of ways or that make a connection to a City owned sewer or water main. Our office maintains a list of Drainlayers that are licensed to install and repair water and sewer lines that connect a home or businesses to City utilities. The Division oversees the permitting, installation and removal of driveways, curbing and sidewalks. The Division maintains and makes available the following maps and records: Assessor Maps, Zoning Map, Census Tract Map, City Street Map, Individual Street Layout Maps, Individual Street Sewer Maps, Sewer Connection Information, and Limited Historical Land Use Information. The Division administers the “Site Plan Review” process which governs the construction of homes, additions, garages, parking facilities, multi-family apartment buildings, commercial and industrial buildings/developments etc. The Division is responsible for the maintenance and operation of the City’s GIS system as well as the assigning of addresses numbers.

Mission: The Department of Engineering and Planning is comprised of multiple Divisions, each of which is governed by State Law, Statute, City Ordinance, Rules, Regulations and associated permitting processes.

“Inspired team based constituent service that provides health, safety and growth for the people and earth that surrounds us.”

Description: The Planning Division is under the jurisdiction of the Department of Engineering & Planning and provides guidance and staffing for the Zoning Board of Appeals, Planning Board, Site Plan Review Committee, Conservation Commission, Licensing Board, Historical Commission and Historic District Commission. As such, it assists these boards, commissions and committees in administering their responsibilities under local, state and federal law with respect to zoning and subdivision control, site plan review, maintenance of the City’s Master Plan and Open Space and Recreation Plan, issuance of various business licenses, the Wetlands Protection Act, and historic preservation. The Planning Division is also responsible for the implementation of long and short term planning initiatives, studies and oversight of municipal projects in an effort to improve the quality of life and spaces within the City of Fall River.

Zoning Board of Appeals: Hears matters relating to Zoning Ordinance appeals, variances, special permits, etc.

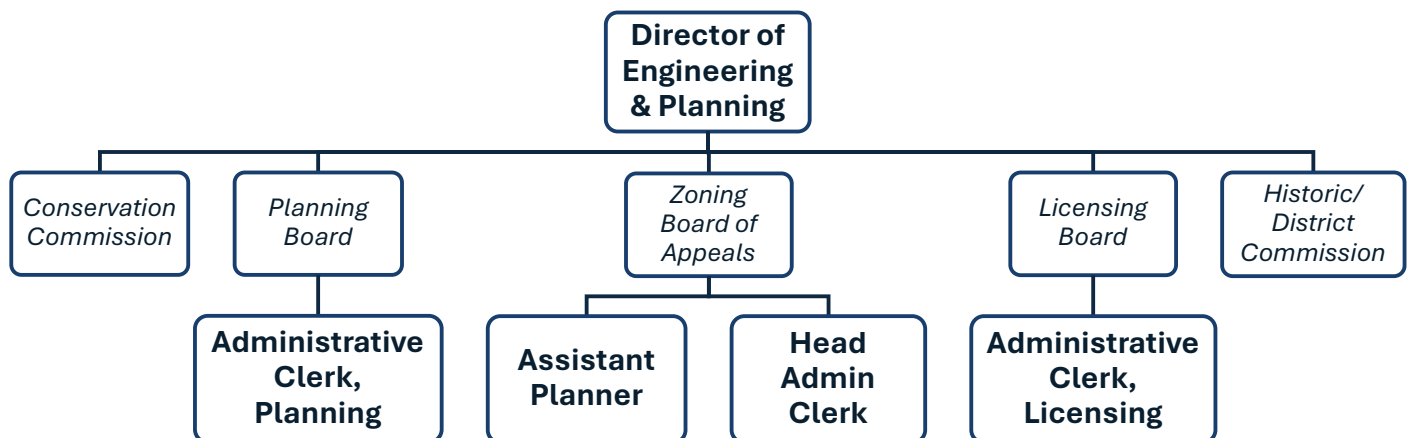

Planning Board: Hears matters relating to the Subdivision of Land, street acceptance recommendations, review of site plans, zoning changes etc.

Conservation Commission: Hears matters related to all activities within Wetland Protection Act Jurisdiction.

Licensing Board: Hears matters related to the granting and signing of licenses for the sale of alcoholic liquors, inn-holders, and common victuallers, and such other licenses as provided by law.

Historic/District Commission: Hears matters related to and aid in the preservation and protection of the distinctive characteristics and architecture of buildings and places significant in the history of the City of Fall River. Hears matters related to the identification, documentation, and protection Fall River’s historic resources, to increase public awareness of Fall River’s heritage and the value of historic preservation.

Mission: Health and Human Services is here to assess, protect and promote the health and quality of life for the residents of Fall River by promoting the creation and protection of a healthier community for all who live, work, and play in Fall River by informing and educating the general public about public health issues, delivering Public Health nursing services, encouraging positive youth developments, the mobilization and participation in community partnerships to identify and resolve community health and human service challenges and issues, promoting, enforcing and educating the populace about Public Health Codes and regulations, and providing access to Senior Centers that offer educational and social opportunities for seniors.

Description: The Department of Health and Human Services (HHS) includes the Health Department/Public Health Nursing, the Council on Aging, Youth Services and five grant-funded programs: Mass in Motion, Tobacco Control, Shannon Grant, Public Health Excellence Grant, and the Contact Tracing grant. The Division of Health and Human Services also handles licensing processing and immunization records, as well as the administrative oversight and reporting preparations for all of HHS' grant programs. This office is responsible for interfacing with the Massachusetts Department of Public Health on follow-up and case management of reportable contagious diseases. In addition, it must be prepared to administer emergency immunizations, work with the Food Inspectors on foodborne illness investigations, is responsible for Public Health Emergency Planning and site set-up operations. The Commission on Disability receives administrative support from this division, while the Board of Health and the Council on Aging Board are fully supported by this department.

Youth Services collaborates with youth-servicing agencies, sponsors youth leadership groups and helps identify and address youth issues. To accomplish this, it acts as grant manager for the Charles E. Shannon Community Safety Initiative (Shannon) Grant. Youth Services also organizes and acts as co-advisor to numerous youth leadership groups, and facilitates other activities.

The Council on Aging (COA) is responsible for assisting Fall River's elderly residents with social, health and educational issues. The COA maintains and staffs Fall River's four Senior Centers. It also provides identification photo IDs to Fall River senior citizens. The COA is also responsible for publishing the bimonthly newsletter, Footprints, which reaches well over 4,000 elders on a regular basis. The COA operations are funded through three sources: General Fund; State Formula Grants; and CDA funding.

Mission: The Fall River Public Library aims to provide the residents of Fall River and further, access to a wealth of balanced and unbiased information, by incorporating contemporary resources, local history records, and the arts and humanities to cultivate a third space within our urban community, that allows residents to learn, create, and engage with each other across all ages, socioeconomic backgrounds, and cultural perspectives.

Description: The Fall River Public Library features distinct specialized departments of Adult, Teen, Children's, Reference, and our Bookmobile Traveling Library. Our Main Library as a whole offers a free space for residents to access and borrow vital resources, including but not limited to; books, audiovisual media, technological tools, internet connectivity, as well as research materials and local history archival records. Services we provide include but are not limited to, media conversion, reader advisory, community outreach, storytelling, technical instruction, passports, notary, genealogy, printing, scanning, faxing, public interest based community groups, and multidisciplinary workshops for all ages and backgrounds. We house an esteemed fine arts and special collections gallery viewable within our building, having first opened its doors as a public library in 1899 showcasing vaulted ceilings, marble columns, mosaic hand laid tile floors, and a glass sunlit atria with elements of revived renaissance architecture that inspires reverence of the Gilded age in Fall River's prominent history in relation to the textiles industry and the Fall River Line.

Education

School Department

School Transportation

Vocational School Assessments

The Massachusetts General Laws Chapter 70 established an annual Net School Spending requirement for each Massachusetts School District. The City is required to appropriate 100% of this amount to the School Department each year. The following shows the expenses that are included other sections of this budget that are added to the Education Appropriation amount to meet annual spending requirements. Transpiration and Vocational Assessments do not count toward Net School Spending.

Emergency Management Agency

Mission: The Fall River Police Department has adopted the slogan “Pride, Service and Commitment as the foundation of our mission statement and commitment to the citizens of Fall River. We hereby dedicate ourselves in mission, utilizing the methods that we have adopted to steady ourselves on the course of “Service, Pride, and Commitment”. We solemnly pledge to enhance the quality of life for the people of Fall River. The only means to that end is a concerted effort, by civilians and police alike, to protect our city from disorder and the criminal element, corner by corner, street by street, and block by block, until every neighborhood is a safe haven for our people.

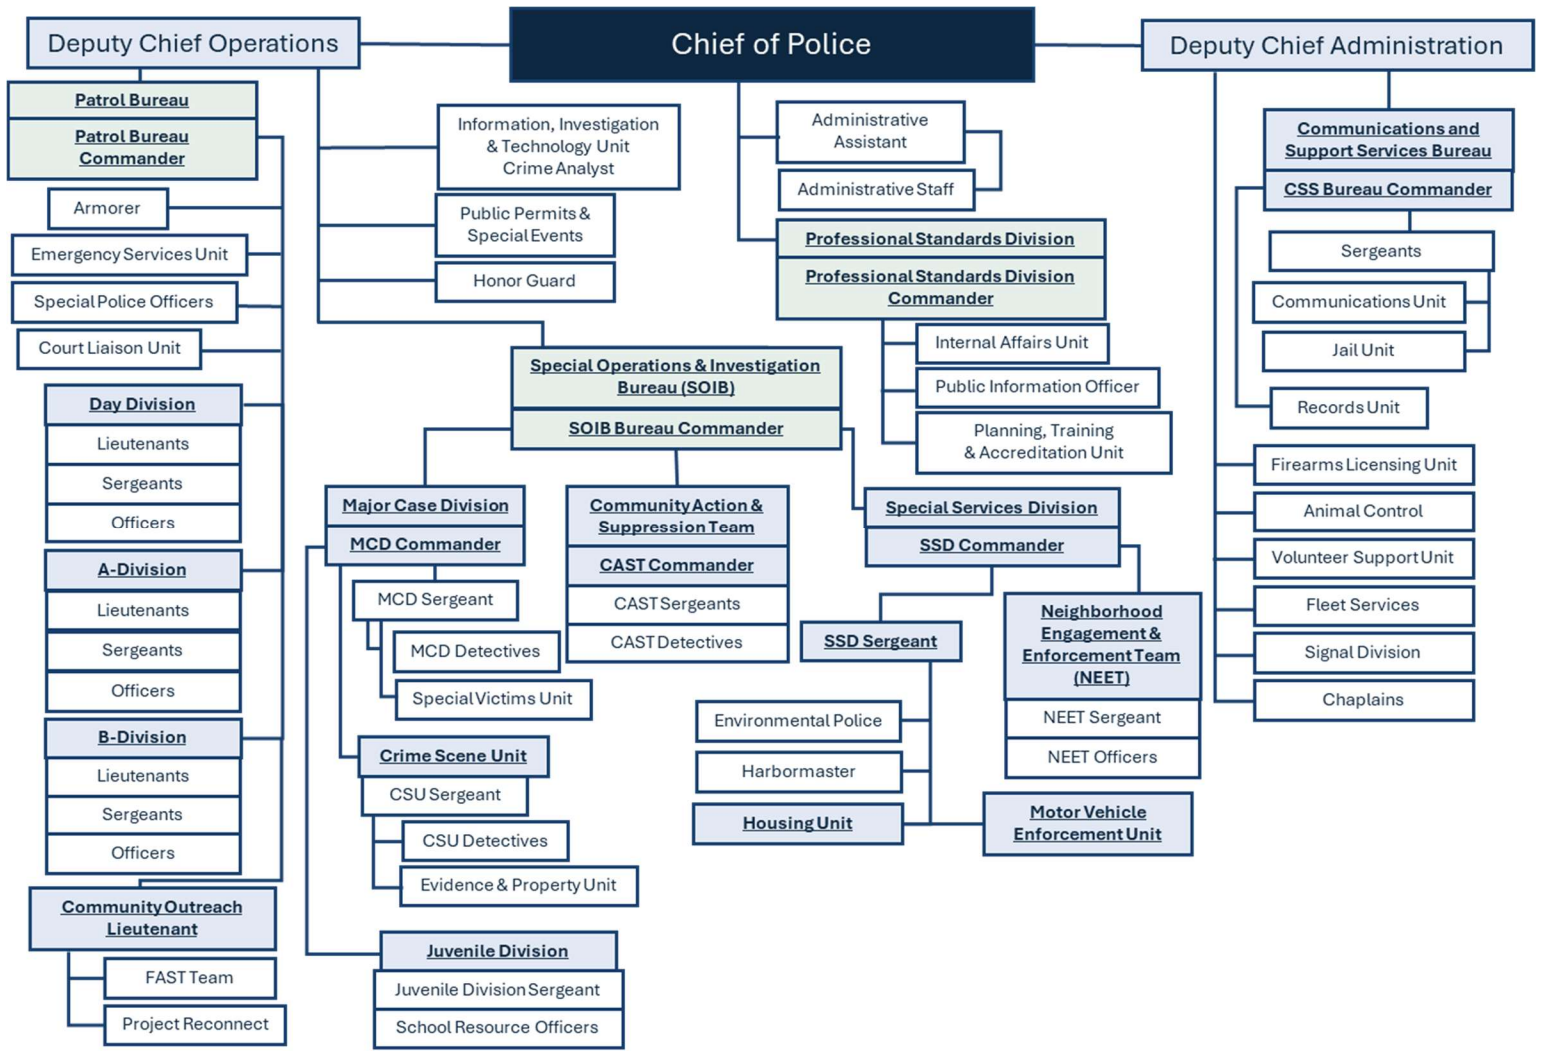

Description: The Fall River Police Department has the enviable distinction of being one of the oldest police departments in the country. Our long and proud tradition dates back to 1854, when the first constable hit the street to begin his tour of duty. For over 150 years, the people of Fall River have entrusted not only the authority, but also their welfare to the police. We have always endeavored not to abuse that authority and to hold their welfare sacred. With the advent of the new millennium, we hereby rededicate ourselves to our mission, utilizing the methods that we have adopted to steady ourselves on the course of "service, pride and commitment."

Service with sensitivity as we continue to strive to meet the needs of our citizens, while being attuned to identifying those needs and being sensitive as to how to best accomplish the task. We resolve to establish frank and open communication with dialogue that best allows us to provide that which is needed by the citizens we serve.

Pride in partnership; to be proud of what we have accomplished together as partners; a new station, a new vision, and an enlightened understanding of each other, the police, and the people we proudly serve. It is our goal that the citizens of Fall River will be proud of their police and that the police will be proud to serve the citizens.

Commitment to the compact that exists between the police and community. There is no police authority without the conferment of that authority through the will of the people. There must exist mutual trust, civility, and respect; and both the police and the people must work toward that end. At the same time, we make a commitment to excellence to do the absolute best that we can as we serve the community.

Mission: The Harbormaster is responsible for enforcing maritime laws and regulations along the City's waterways. This includes overseeing boat ramp operations, mooring permits, ensuring vessel safety, and maintaining navigational order. The Harbormaster's role is integral to promoting a safe and enjoyable boating environment in Fall River with professionalism and courtesy.

Description: The Fall River Harbormaster operates within the Special Services Division and under the jurisdiction of the Fall River Police Department. The Harbormaster oversees boat ramp operations, mooring permits, vessel safety, and navigational order. The Harbormaster duties include 24/7 emergency response for water rescues, distress calls, and evacuations. The Harbormaster must maintain CPR and First Responder certification, operate the State-funded Pump-Out Boat, and manage the placement of navigation aids. Additional responsibilities include reporting spills or suspicious activity, enforcing harbor regulations, and maintaining proper training and records. The Harbormaster reports directly to the Chief of Police or designee.

Mission: The Fall River Fire Department is here to serve and protect our community with fast, professional, and caring responses to emergencies. We work hard to reduce the impact of fires, accidents, and disasters by staying educated and trained on the latest firefighting and rescue techniques. We're also dedicated to connecting with our community through service and volunteer efforts, building meaningful relationships to make Fall River safer and better. Committed to always improving, we collaborate closely with other public safety departments and embrace new ideas to keep everyone in our community safe and well.

Description: The Fire Departments' responsibilities are to provide response and safe mitigation of any emergency or hazard including fires, hazardous materials, technical rescue and extrication, medical emergencies, motor vehicle accidents and mutual aid to surrounding communities. In addition, we also provide fire inspections, code enforcement, fire investigation and fire education. This is accomplished through an integrated fire suppression capability, a state-of-the art pre-hospital care system, fire prevention and code enforcement, public education, and a comprehensive emergency management system. The Fire Department includes Fire Suppression, Fire Administration, Fire Prevention Bureau, Training Division, Maintenance Division, and Emergency Management Agency. We are also supported by The Special Services Division, a group of dedicated volunteers.

The City incurs long- and short-term debt, depending upon financing requirements and project status. This debt includes bonds and notes, which are subject to approval by the City Council. Borrowings for some purposes also require administrative approval by the State. Debt funded projects associated with the General Fund Departments are assigned to this account, projects associated with the City's three enterprise funds are budgeted within their respective funds.

	FY2025	FY2026	FY2026	FY2027

The following is a breakdown that shows the Total Employer Costs paid from the Employer Trust Fund for Health, Dental, and Life Insurance coverage. The annual costs are provided as estimates by outside Insurance Advisors. There are a few outside organizations our plans are offered to and they pay their portion directly into the Employer Trust Fund. The cost of their coverage is included in the Total Employer Costs. Additionally, we have a Prescription Rebate Program and Stop Loss Insurance to help reduce our Health Care expenses.

Mission: Protect the public health, public Safety and the environment. Protect and improve the sewer and storm water assets. Perform at the least reasonable cost.

Description:

- Comply with Federal/State sewer and storm water NPDES permits.
- Comply with Federal CSO Court Order.
- Comply with the Federal EPA SSO Administrative Order.
- Comply with all applicable regulations.
- Minimize sewer and storm water bills as reasonably as possible while meeting the goals and objectives.
- Implement the Integrated Sewer/Stormwater Master Plan (IP Plan).

Mission: Protect the public health, public Safety and the environment. Protect and improve the sewer and storm water assets. Perform at the least reasonable cost.

Description:

- Comply with Federal/State water permits.
- Comply with State Administrative Order on Lead compliance.
- Comply with the Federal Disinfection Byproduct rule.
- Comply with all applicable regulations.
- Minimize water bills as reasonably as possible while meeting the goals and objectives.
- Implement the 20 year Master Plan.

The City is committed to preparing, submitting and operating with a balanced budget. A balanced budget is defined as a budget in which receipts are equal to (or greater than) expenditures.

Reserve Policies

Fund balance and reserve policies exist to protect the City from unforeseen increases in expenditures, reductions in revenues, a combination of both or any other extraordinary events. Fund balance and reserve policies also serve to provide an additional source of funding for capital expenditures. The amounts held between fund balance and reserves should average between 5% and 10% of the City’s operating budget.

Capitalization Policy

Consistent with GASB 34 and the guidelines and recommendations of the Massachusetts Department of Revenue - Division of Local Service - Bureau of Accounts the City has established the following capitalization thresholds and depreciation.

Asset Type	Estimated Useful Life	Threshold
Machinery, Equipment and Vehicles	3-15 Years	\$50,000
Buildings and Facilities	40 Years	\$100,000
Building Improvements	20 Years	\$50,000
Land	N/A	\$ -
Land Improvements	20 Years	\$20,000
Infrastructure	5-50 Years	\$150,000

Procurement Policy

The City follows the public procurement procedures pursuant to the Massachusetts General Laws. These compliance requirements were updated effective July 15, 2018, pursuant to the passage of Chapter 113 of the Acts of 2019, *An Act Providing for Capital Facility Repairs and Improvements for the Commonwealth*.

The specific MGL’s are as follows:

- MGL c. 149 – Building Construction Contracts
- MGL c 30 § 39M or MGL c 30B – Public Works (Non-Building) Construction Contracts (With Labor)
- MGL c 30 § 39M or MGL c 30B – Public Works (Non-Building) Construction Contracts (Without Labor)
- MGL c 7C §§ 44-58 - Design Services for Public Building Projects
- MGL c 30B – Procurement of Supplies and Services

Contracts are signed and approved by the requesting Department as to the need for such goods and services, the Purchasing Agency as to the compliance with the above requirements, the Corporation Counsel as to form, the City Auditor as to the sufficiency of the appropriation as evidenced by the accompanying purchase order, and finally by the City Administrator as to the desirability of the goods and services.

Cash Management Policy

Consistent with Massachusetts General Laws, all money belonging to the City is turned over to the Treasurer who receives and takes charge of all money. Departments turn over all money collected to the Treasurer daily. Mindful of the principles of security, liquidity and yield described in the City’s Investment Policy the Treasurer shall keep safe that amount of cash necessary for routine transactions and deposit all other money in an appropriate financial institution daily. Daily, the Treasurer shall account to the Auditor all treasury collections according to departmental direction for the Auditor’s review. Collections made by the Collector are deposited daily but are reported to the Auditor for entry to the General Ledger weekly.

Investment Policy

It is the intent of this policy statement for the City to invest funds in a manner which will provide for the maximum investment return while securing principle, mitigating investment risk (credit & interest rate), maintaining liquidity for the daily cash flow demands of the City and conforming to all statutes governing the investment of the City.

The investment policy applies to all financial assets associated with the General Fund, Special Revenue Funds, Capital Projects Funds and the Enterprise Funds including all proceeds associated with bond issuance's and short-term financing. Specifically;

- The Treasurer has the authority to invest the City's funds, subject to the statutes of the Commonwealth of Massachusetts, Chapter 44, § 55, 55a and 55b.
- The Treasurer has the authority to invest the City's Trust Funds, subject to the statutes of the Commonwealth of Massachusetts, Chapter 44, § 54. All trust funds shall fall under the control of the Treasurer unless otherwise provided or directed by the donor.
- The Treasurer invests all public funds not designated for immediate distribution at the highest possible rate of interest reasonably available, taking into account safety, liquidity and yield as required by Massachusetts General Laws, Chapter 44, § 55B and Chapter 740 of the Acts of 1985.
- The Treasurer shall negotiate for the highest rates possible, consistent with safety principles. Whenever necessary, the Treasurer will seek collateralization for all investments not covered by FDIC and/or DIF.

Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs; not for speculation but for investment considering the probable safety of their capital, as well as the probable income to be derived.

Debt Policy

General Debt Limit

There are many categories of general obligation debt which are exempt from and do not count against the General Debt Limit. Among others, these exempt categories include revenue anticipation notes and grant anticipation notes, emergency loans, loans exempted by special laws, certain school bonds, sewer project bonds and solid waste and solid waste disposal facility bonds (as approved by the Emergency Finance Board), and, subject to special debt limits, bonds for water, housing, urban renewal and economic development (subject to various debt limits) and electric and gas (subject to a separate limit to the General Debt Limit, inducing the same doubling provision).

Industrial revenue bonds, electric revenue bonds and water pollution abatement revenue bonds are not subject to these debt limits. The General Debt Limit and the special debt limit for water bonds apply at the time the debt is authorized. The other special debt limits generally apply at the time the debt is incurred.

Communities have four basic ways to finance capital projects: pay-as-you-go financing, debt financing, public private ventures, and intergovernmental financing. Over-reliance on any one of these options can be risky to a local government's fiscal health. It can also restrict the municipality's ability to respond to changes in economic and fiscal conditions. The City's policy makers are careful to choose the right combination of financing techniques. In addition to debt financing, the City uses, when appropriate, the pay-as-you-go technique in its capital programs.

Authorization of General Obligation Debt Under the General Laws, bonds and notes of a City are generally authorized by vote of two-thirds of all the members of the City Council. Provision is made for a referendum on the filing of a petition bearing the requisite number of signatures that would require all the cost to be excluded from the Proposition 2 ½ taxation limits. Borrowing for certain purposes also requires administrative approval from the Commonwealth. Temporary loans in anticipation of current revenues, grants and other purposes can be made without local legislative approval.

Types of Obligations

Under the statutes of the Commonwealth, the City is authorized to issue general obligation indebtedness of the following types:

Serial Bonds and Notes – These are generally required to be payable in equal or diminishing annual principal amounts beginning no later than the end of the next fiscal year commencing after the date of issue and ending within the terms permitted by law. Level debt service is permitted for bonds or notes issued for certain purposes, and for those projects for which debt service has been exempted from property tax limitations. The maximum terms vary from one year to 40 years, depending on the purpose of the issue. Most of the purposes are capital projects. They may be made callable and redeemed prior to their maturity, and a redemption premium may be paid. Refunding bonds or notes may be issued subject to the maximum terms measured from the date of the original bonds or notes. Serial bonds may be issued as "qualified bonds" with the approval of the State Emergency Finance Board, subject to such conditions and limitations (including restrictions on future indebtedness) as may be required by the Board. The State Treasurer is required to pay the debt service on "qualified bonds" and thereafter to withhold the amount of debt service from state aid or other state payments. Administrative costs and any loss of interest income to the Commonwealth are to be assessed upon the City.

Bond Anticipation Notes – These generally must mature within two years of their original dates of issuance, but may be refunded from time to time for a period not to exceed five years from their original dates of issuance, provided that (except for notes issued for certain school projects that have been approved for state school construction aid) for each year that the notes are refunded beyond the second year, they must be paid in part from revenue funds in an amount at least equal to the minimum annual payment that would have been required if the bonds had been issued at the end of the second year. The maximum term of bonds issued to refund bond anticipation notes is measured from the date of the original issue of the notes, except for notes issued for such State-aided school construction projects.

Revenue Anticipation Notes – Revenue Anticipation Notes are issued to meet current expenses in anticipation of taxes and other revenues. They must mature within one year but, if payable in less than one year, may be refunded from time to time up to one year from the original date of issue.

Grant Anticipation Notes – Grant Anticipation Notes are issued for temporary financing in anticipation of Federal grants and State and County reimbursements. They must generally mature within two years but may be refunded from time to time as long as the municipality remains entitled to the grant or reimbursement.

Revenue Bonds – Cities and towns may (though the City has none) issue revenue bonds for solid waste disposal facilities and for projects financed under the Commonwealth's water pollution abatement revolving- loan program.

Introduction

A capital improvement plan (CIP) is a tool to help organizations make effective budgeting decisions for large projects and purchases, based on municipal goals and available resources. A CIP is a short-range plan, usually four to ten years, which identifies capital projects and equipment purchases, provides a planning schedule, and identifies options for financing the plan if necessary. The CIP should provide a link between the municipality and a comprehensive and strategic plan and the entity's annual budget.

A CIP provides a working plan for sustaining and improving the community's infrastructure and department equipment. It is critically important and one of many major responsibilities for a government entity. The CIP is a working document and should be reviewed and updated annually to reflect changing community needs, priorities, and funding opportunities. An annual review is important to ensure that the infrastructure and equipment exists to advance the community's strategic and long-term goals and objectives. The CIP is essential for managing and coordinating the expenditure of public resources.

Policies

- The City will make capital improvements in accordance with an adopted CIP, based on available funding.
- The City will develop a 5-year plan for capital improvements and update it each year.
- Future capital expenditures necessitated by changes in population, real estate development or economic base will be calculated and included in the capital budget projections.
- The City will coordinate development of the capital improvements budget with development of the operating budget. When possible and efficiently to do so, future operating costs associated with new capital improvements will be projected and included in operating budget forecasts.
- The City will use intergovernmental assistance to finance those capital improvements that are consistent with the CIP and City priorities, and whose operating and maintenance costs have been included in operating budget forecasts.
- The City will maintain all its assets at a level adequate to protect its capital investment and to minimize future maintenance and replacement costs.
- The City will identify the estimated costs and potential funding sources for each capital project proposal before it is submitted to the City Council for approval.
- The City will determine the least costly financing method for all new projects.
- The City will plan and organize the acquisition of capital assets with objectives to minimizing the annual operating debt service cost.

Capital Assets Defined

A capital improvement project is defined as a major expenditure that includes one or more of the following:

1. Any acquisition of land for a public purpose.
2. Any construction of a new facility (e.g., a public building, water lines, pavilion etc.) or an addition to, or extension of, such a facility.
3. Rehabilitation (i.e., something which is infrequent and would not be considered annual or other recurrent maintenance) or major repair of all or a part of a building, its grounds, or a facility, or of equipment with a cost of \$50,000 or more.
4. Purchase or major equipment with a cost of at least \$10,000, which have a useful life of five years or more.
5. Any planning, feasibility, engineering, or capital design study related to an individual capital improvement project or to a program that is implemented through individual capital improvement projects.

Benefits and Features of a Capital Improvement Plan

A complete, properly developed CIP delivers the following benefits:

- Synchronized capital and operating budgets;
- Systematically evaluates competing demands for resources based on a prioritization matrix reflecting the municipalities long-term goals and objectives;
- Identifies, prioritizes, and optimizes the financing of capital projects;
- Links strategic and comprehensive plans with fiscal capacity; and
- Informs the public about the government's investment in infrastructure and equipment.

Capital Improvement Plan Criteria

Each of the items submitted in the Capital Needs Assessments and in this document are assigned a criterion or standard by which the project may be evaluated. In an effort to assist in the annual evaluation and prioritization of the capital projects, equipment, and infrastructure needs, each are assigned to a specific criterion as described below.

Project Type

Buildings & Infrastructure would include things like land, sidewalks and roads, sewer and water pipes, roofs replacements, and building repairs and construction.

Vehicles include anything that the RMV would require to be registered.

Capital Equipment/Items would include most anything else that meets the value threshold that isn't in one of the previous options such as but not limited to: stretcher replacements in EMS, IT server replacements, mowers, furniture, etc.

Needs Addressed

Replacement/Repairs/Renovation of Existing Asset

- **Risk to Public Safety or Health:** to protect against a clear and possibly immediate risk to public safety or public health.
- **Deteriorated Facility:** an investment that deals with a deteriorated facility or piece of equipment. The action taken may be either 1) reconstruction or extensive rehabilitation to extend its useful life to avoid or to postpone replacing it with a new and costlier one; or 2) replacement of the facility or piece of equipment with a new one.
- **Systematic Replacement:** an investment that replaces or upgrades a facility or piece of equipment as part of a systematic replacement program. This investment assumes the equipment will be replaced at approximately the same level of service with some increase in size to allow for normal growth or increased demand. Systematic replacement is intended to coordinate regular, recurring replacement needs in a fiscally feasible and responsible manner.

Investment in a New or Existing Asset for Compliance

- **Coordination:** 1) An expenditure that is necessary to insure coordination with another CIP project (e.g., scheduling a sewer project to coincide with a street reconstruction project so that the street is not dug up a year after it is completed); 2) A project that is necessary to comply with requirements imposed by others (e.g., a court order, a change in federal or state law, an agreement with another governmental jurisdiction or agency); or 3) A project that meets established goals or objectives of the Administration.
- **Equitable Provision of Services:** 1) An investment that serves the special needs of a segment of the community's population identified by public policy as deserving of special attention (e.g., the handicapped, the elderly, or low- and moderate-income persons); or 2) An investment that, considering existing services or facilities, makes equivalent facilities or services available to neighborhoods or population groups that are now undeserved in comparison with residents generally.
- **Protection and Conservation of Resources:** 1) A project that protects natural resources that are at risk of being reduced in amount or quality; or 2) A project that protects the investment in existing infrastructure against excessive demand or overload that threatens the capacity or useful life of a facility or piece of equipment.

Increased Efficiency/Effectiveness

- **Improvement of Operating Efficiency:** an investment that substantially and significantly improves the operating efficiency of a department. Or an expenditure that has a very favorable return on investment with a promise of reducing existing, or future, increases in operating expenses (e.g., introduction of a new or improved technology).
- **New or Substantially Expanded Facility:** construction, or acquisition, of a new facility (including land) or new equipment, or major expansion thereof, that provides a service, or a level of service, not now available that would provide enhanced quality of life or service.

Priority

The levels to choose are **critical**, **high**, **intermediate**, or **low**. Only items that address needs under **Replacement/Repairs/Renovation of Existing Asset** or **Investment for Compliance** are eligible to be classified as Critical or High priority.

- **Critical** should only be used for something that is CURRENTLY no longer in service or barely in service but is vital for continued service, safety, or operation.
- **High** priority should be for items that are within 18 months of the end of their useful life, but are imperative to have for continued service, safety, or operation.

Process

Development

Departments are requested to submit a Capital Needs Assessment to the Director of Financial Services. This assessment includes them submitting the project name, overview, location, project type, needs addressed, priority level, estimated costs, and if any funding has been identified or secured.

The Director of Financial Services compiles the information submitted for review with the Administration with an updated 5-year financial forecast. Departments are consulted for additional information or input as needed after review begins.

An updated Capital Improvement Plan is submitted to City Council with an updated financial forecast for consideration. Financial orders are prepared and submitted on a project-by-project basis for authorization after the plan has been approved.

Implementation

While this plan suggests funding methods for each project and notes some potential grant funding opportunities, we will continuously monitor and review the available resources for the projects to ensure the most fiscally responsible option is utilized. As financial orders are submitted, we will discuss how it aligns with the most recently approved plan in timeline and funding method.

It is also important to note that initial project authorization is key for any construction projects to be able to move into the phase of design, which is required to provide better cost estimates and timelines, for full project funding sources to be identified. Additionally, any debt authorization is typically needed and made for projects to begin, but debt is taken out on a short-term basis once cashflows are needed and is never long termed until the project is completed or very near full completion to ensure we are only taking on absolute necessary debt.

The Director of Financial Services and City Administrator will have quarterly meetings with departments to review their capital projects contained in this plan. This is intended to ensure continued progress and stay ahead of any delays, increased needs, or shifting priorities.

Maintenance

This document is intended to provide general guidelines for planning purposes. The costs provided are estimates based on the knowledge available at the time the plan was prepared. We attempt to factor in cost changes in future years, but all amounts will be adjusted as procurement is complete.

While a lot can change in 5 years in terms of capital needs, the plan attempts to forecast all that we can at this point and is updated annually to account for shifting needs or priorities.

Executive Summary

Please find for your review and consideration the proposed fiscal years 2027 through 2031 Capital Improvement Plan for the City of Fall River. The plan includes the current fiscal year 2026 for a current comprehensive look at what we are doing now and to show how some of these projects' cross fiscal years.

All departments submitted a Capital Needs Assessment, and all submissions were evaluated and prioritized and combined into the 5-Year CIP document and assigned a priority level. The information provided by the departments on the projects needs addressed and priority level, assists with prioritization of projects within available resources. The projects are organized under each department in order of priority level.

Please note that any projects with debt as the identified funding source, will be shown within the fiscal year we are looking to authorize the full debt amount, and that is not what the debt equates as a financial burden for that fiscal year. The financial impact for each fiscal year will be shown in separate summary tables.

Sewer and Water Enterprise Fund supported capital items are included in the summary data to provide a comprehensive look at capital investment in the City of Fall River. However, since their capital plan is part of a much larger comprehensive plan, the details are not included here at this time.

Data Overview

The following chart displays the breakdown by category and fiscal year, in total for all General Fund, EMS Enterprise Fund, Sewer Enterprise Fund, and Water Enterprise Fund projects that are included in this plan:

	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031	Total
Buildings & Infrastructure	75,508,592	57,114,800	89,817,906	63,522,437	62,201,843	55,570,402	404,335,980

Capital Needs by Department

City Operations

Cemetery & Tree's

Fleet Replacement: \$315,000

Systematic replacement of the trucks and equipment for Cemetery & Tree Divisions aging fleet.

Office and Meeting Station Restoration & Repairs – Oak Grove Cemetery: \$1,240,000

The roof, masonry, windows, doors, and interior needs restoration and repairs. Year 1 would include the roof. Year 2 would include the masonry and interiors, and year 3 would be the completion of the windows and doors.

Maintenance Garage & Building – Bullock Street: \$1,100,000

Renovate current restroom building to add men’s and woman’s restrooms in fiscal year 2028. Addition of a metal building for maintenance to house operations vehicles, equipment, and supplies to eliminate the need for rented storage space.

Community Maintenance

MRF (Municipal Recovery Facility) - Lewiston Street: \$16,000,000

Renovation of the Old Incinerator Building to repurpose as Municipal Recovery Facility. This is already in progress with ARPA funds and should be completed in the next 6 months.

Salt Storage Building – Lewiston Street: \$1,200,000

Demolish existing Salt Shed and replace it with a new one. This is already in progress with ARPA funds and should be completed in the next 6 months.

DCM Building and Site Renovation – Lewiston Street: \$150,000

Renovate the DCM building and site and repair office areas. This is already in progress with ARPA funds and should be completed in the next 6 months.

Fleet Replacement: \$910,000

Trucks and equipment for Streets & Highways and Solid Waste Divisions to systematically replace aging fleet. Additionally, to eliminate need for leasing and transportation costs, we are looking to acquire a 53’ Box Trailer, Tri-Axle Roll-Off, and Peterbilt 567Tractor Wet System.

Maintenance Tools and Equipment – Lewiston Street: \$50,000

The existing diagnostic equipment needs to be upgraded. Upgrades and new purchases of standard tools.

Storage Building – Lewiston Street: \$150,000

A separate building to built to store equipment and supplies out of the elements to extend the useful life of these vital capital assets.

Facilities

Center Fire Station: \$3,450,000

This project is being designed to renovate and update the 1940s fire station with architectural, mechanical, plumbing, electric, and fire alarm system aspects. There is \$644,500 in CPC funds for this, as well as funds from the EMS secured loan authorization. The amount for this year is just for the design work and bid documents needed. **The loan authorization is listed as External Source as the General Fund will not be making the debt payments at this time.*

Library Repointing: \$1,130,000

This is for design and repairs needed in the most weather deteriorated side of masonry at the Library. It has been funded by Mass Historic Preservation and ARPA. We are proposing to have the other three sides of the building repaired with a change order through Free Cash funding.

Nagle Auditorium Sprinklers: \$2,570,000

There has been a full replacement of the sprinkler equipment with ARPA funds to be able to return use of the space. This work should be completed by March 2026.

Third Street Garage: \$6,716,000

The initial funding of repurposed, leftover debt from other capital projects has been for feasibility studies and design work on the garage. The following years are in accordance with these designs. The first year includes all proposed necessary repairs to make intact and security upgrades. The second year includes another phase of repairs and maintenance to the garage that are less immediate need. The third year includes the beginning of annual maintenance, as well as proposed enhancements to the garage.

Pearl Street Garage: \$4,255,000

The initial funding of repurposed, leftover debt from other capital projects has been for feasibility studies and design work on the garage. The following years are in accordance with these designs. The first year includes all proposed necessary repairs to make intact and security upgrades. The second year includes another phase of repairs and maintenance to the garage that are less immediate need.

Parking Lot Security Upgrades – Cash and Columbia Street Lots: \$100,000

Add safety and security features to Cash and Columbia Street lots.

Police Station Building Maintenance: \$3,600,000

FY2027 will include: Complete window replacement, parking lot repairs and maintenance, replace garage makeup units as the building does not have sufficient ventilation, the tar roof is at year 30 of a 30-year life, repairs can be performed as needed to extend the life, and replace glass blocks to structural supports and windows in the stairwells. FY2028 will include: Replace deteriorated ceramic tile on 1st and 2nd floors, metal roof waterproof coating to extend the useful life, and replace chillers and HVAC equipment. FY2031 will include: A tar roof replacement.

Fire Stations City Wide: \$1,700,000

There has been a list of repairs and maintenance needed at all the fire stations across the City. The Facilities Department has been working on taking care of all the items that can be done in-house or within the operating budget this fiscal year. We will plan to put in money in the future years of this plan to take care of the large items on the list outside of the Central Fire Station.

Parks

Fleet Replacement: \$315,000

Systematic replacement of the department's aging fleet intended to coordinate regular, recurring replacement needs in a fiscally feasible and responsible manner. Some money is allocated in ARPA for this already.

Lafayette Skate Park & Walkways: \$844,518

A new skate park that is being funded by ARPA is slated to be started in Spring 2026. The park's walkways are in very poor condition, so we are looking to repair and replace those at the same time.

Abbot Court Sensory Playground: \$400,000

A new sensory touch playground located at Abbot Court. This project is being coordinated with the community and is in consideration for Community Preservation funding.

North Park Ice Rink Walkway: \$45,000

Replacement of the concrete walkway around the ice rink that was funded with an earmark from the State.

Kennedy Park Walkways: \$375,000

Replacement of walkways in Kennedy Park that are in very poor condition. This project is in consideration for Community Preservation funding.

North Park Walkways: \$200,000

Restoration and replacement of walkways and attached stairs that are in poor condition.

Resurface Play Courts – Various Locations: \$300,000

Crack fill, resurface and remark numerous basketball and pickleball courts in Lafayette, Maplewood, North, Highland, Ruggles, Griffen, and Chew Park. This project is in consideration for Community Preservation funding.

Britland Park Parking Lot: \$250,000

Replacement of the existing parking lot at Britland Park. This project is in consideration for Community Preservation funding.

Kennedy Park Parking Lot: \$400,000

Replacement of the existing parking lot and entranceways at Kennedy Park. This project is in consideration for Community Preservation funding.

Park Pole Removal – Citywide: \$80,000

A study was done in 2018 to remove existing light poles in various parks in critical condition, we would like to complete this work now with Free Cash.

City Clerk & City Council

City Clerk and Council Office Upgrades – City Hall: \$32,000

Current carpeting is 20+ years old. It has stains, rips and is very worn. Looking to update the office furniture and cabinets. Desks have broken or removed laminate, wooden storage cabinetry does not open properly, and wooden desks have splinters or have been taped. Add door to the Conference Room from the hallway. Add door to exterior in the conference room to eliminate need to cut through private offices and make ADA accessible. Create break room and storage space and reconfigure and reorganize front office for optimization of space.

Council Chambers Carpeting Replacement – City Hall: \$100,000

Carpeting on the stairs and lobby outside the City Council Chamber has permanent stains and is very worn. Carpeting is also 20+ years old.

Traffic

Roadway Speed Tables – Various Locations: \$330,000

Speed tables are intended for high traffic areas within the City where speeding is a known issue. Including areas near parks, schools, business districts, and other locations where there is high pedestrian activity. With the increased vehicle speed in these zones, public safety is the top priority. This has started with some temporary style speed tables; we are exploring where permanent installations would make sense. This funding would likely include a mix of temporary and permanent speed tables.

Project Name	FY	External Source	Free Cash	Operating Budget	Debt	ARPA	Total Project
Roadway Speed Tables	2026		165,000				165,000

Engineering

Road Repairs – City Wide: \$28,201,106

Reconstruction of various streets and sidewalks throughout the City. As Chapter 90 funding has been level funded for the past several years and as the cost of projects is ever increasing, the City is going to be committing funds in addition to Chapter 90 funding in all future years.

Globe Four Corners Improvement: \$900,000

Reconstruction of the Globe Four Corners intersection and signal improvements. This received a \$703,850 grant from MassDOT and the remaining portion is being funded with Liberty Utility funds.

Eastern Avenue Improvement Project: \$21,000,000

Reconstruction of Eastern Avenue from Brayton Avenue to the President Avenue Rotary. This vital Route 6 corridor is in dire need of complete reconstruction. This will also be an opportunity to create new sidewalks and bicycle lanes. This is a very large project, and conversations have been with MASSDOT regarding funding. We have been advised to secure some in-house funding with the anticipation of State match.

Blossom Road/Copicut Roadway Improvement: \$12,500,000

Reconstruction of Blossom Road from the Westport Line to Wilson Road and the reconstruction of Copicut Road from the Dartmouth Line to Quanipaug Road. These long-neglected streets within the City are in dire need of replacement. The property owners in these far-reaching areas of the City have been beyond patient. Additionally, these are the roadway systems that access our most incredible resource areas and open spaces (State Forest and Bioreserve). These roadways are currently impassible in many locations.

Library

HVAC: \$545,000

The air conditioning and heating has continued giving issues, both chiller, and HVAC unit elements, causing condensation issues in ceilings/walls. The Building Management System needs to be assessed by a mechanical engineer, to propose the correct changes needed. We will do the assessment this year for work to be completed next year, followed by replacement of drop ceiling tiles and lighting that has been damaged by the current issues.

Doors & Windows: \$175,000

Replacement of window and door frames wooden moldings that are deteriorating. Replacement of all lower-level steel doors that are rusted and rotted out on the bottom where they meet the ground.

Flooring Restoration: \$200,000

Carpet removal and historic stone marble restoration throughout the library, done in sections based on priority need and other changes taking place.

Study Room Enhancement: \$250,000

Installation of 8 locking Study Room doors with full body length glass for staff visibility.

Restrooms: \$40,000

The public bathrooms should be reconfigured into at least 2 stall bathrooms each, this is the only thing that may resolve smoking, drug use, etc. in bathrooms, because currently patrons are alone in a locked room where no one can see what occurs. A multi-stall bathroom would improve visibility and limit emergency situations and fire alarms due to smoking in unmonitored locked single bathrooms.

Parking Lot Repaving: \$30,000

The parking lot gets damaged by salt and frequent use; it is maintained and repaired as needed but will be due for complete repaving around fiscal year 2029. This is a low cost given the size, which allows it to be completed internally.

Bookmobile Mini: \$50,000

Purchase of a commercial van, smaller scale van to utilize for senior home delivery service as well as a backup if and when any issues occur with the Bookmobile. This is a smaller scale vehicle not needing a specialized driver. This would result in an additional \$1k per year in maintenance costs in the operating budget.

Technology Replacement Plan: \$141,000

Replacement of both staff and public computers every 2 years due to frequent use and new computer software necessary every couple of years to support library software.

Shelving: \$50,000

Estimated additional shelving need in new areas of the Library.

Planning

Columbia Street Parklet – Parcel I-6-22 Columbia Street: \$500,000

Restoration of the Columbia/Canal Street parklet. This parcel was conveyed to the City by the Roman Catholic Bishop. The project would include the restoration of the lower paver section as well as the complete reconstruction of the upper portion to include new landscaping, seating and lighting.

FR Kelly Park/ Parking Facility: \$500,000

The construction of a new parking facility to be located at the westerly end of FR Kelly Park located on Globe and South Main Streets.

Bell Tower – TBD: \$410,000

Design and construction of a new Bell Tower including digital controller, memorial plaque, landscaping and lighting for the purpose of displaying the Historic City Bells that were removed from Third Street.

Open Space and Recreation Amenity Webpage/App: \$100,000

The creation of a state-of-the-art webpage/app that will categorize and inventory all Open Space and Recreational opportunities within the City of Fall River. This was an item of great importance to the Open Space and Recreation Committee.

Wayfinding Signage – Citywide: \$150,000

Complete overhaul of all Wayfinding Signage throughout the City to include branding utilizing the newly created City logo, this effort would create a consistent menu of signage to be installed throughout the City identifying points of interest, parking etc.

Zoning Ordinance: \$300,000

A Complete Zoning Ordinance Revision is long overdue. The current Ordinance is outdated and could hinder development within the City. Items to be specifically addressed would include Affordable Housing and Parking.

Quequechan River Trail Phase IVB – Britland Park to Quequechan/ Quarry Streets: \$4,200,000

Completion of the Quequechan River Trail Phase IVB as this phase was held due to ARPA deadline constraints. This portion of rail trail would start at Britland Park and head along the Quequechan River, Police Station and Mill complexes ultimately connect to Quequechan/ Quarry Street and the recently constructed Phase IVA portion of the trail.

Lower Kennedy Park Overlook: \$6,150,000

The Kennedy Park Overlook at the westerly end of the park provides for a stunning view of the Taunton River and Mount Hope Bay. Currently this overgrown grass field with no parking provides no recreation benefit to the Citizens of the City. The proposed pavilion, parking area, walking paths and picnic areas will provide for one of the most incredible vistas and open space.

Police

Fleet Replacement: \$4,055,856

Systematic replacement of the Police fleet. The priority is to replace the front-line vehicles with high mileage and increased maintenance costs with 7 marked cruisers and 2 unmarked cruisers per year, these will be factored into the operating budget beginning in FY2028. There will be a goal to replace 2 additional unmarked cruisers and/or miscellaneous vehicles in the fleet per year, as Free Cash is available. See the included Fleet Replacement Schedule for additional details.

Traffic Signal Upgrades – Various Locations: \$360,000

Upgrade of City's traffic signal light controllers, mounting brackets, and ADA compliant pedestrian signals as well as continued upgrading of the FRPD's primary radio communications channel 1.

Evidence Storage Shelving – Police Headquarters: \$70,000

Install new rolling storage shelving system to increase evidence storage capacity. Currently, the evidence storage is approaching full capacity.

911 Recording Computer Storage Server – Police Headquarters: \$25,500

To purchase and implement a 911 call recording server to preserve 911 and other transmissions as required by MGL.

Fall River Police Department Firearms Upgrade: \$250,000

To replace the current Fall River Police Department issued firearms from the Smith & Wesson MP series to the Glock firearm with optic sight system. This includes resale of the current issued firearms.

Computer Assisted Dispatching (CAD) & Records Management System (RMS) Program – Police Headquarters: \$1,108,805

To replace current antiquated system (IMC) with a new system for computer assisted dispatching and records management system. This requires initial implementation and then recurring annual subscription costs.

Dispatch Area Upgrades – Police Headquarters: \$100,000

The Dispatch area within the Communications Center requires replacement of deteriorating communication/ computer consoles and flooring upgrades.

Decorative Lighting Restoration – Citywide: \$200,000

Many of the City's approximately 200 decorative light fixtures are well beyond their life expectancy and no longer provide adequate roadway or sidewalk illumination. Replacement will be performed by Signal Division.

Fire

Apparatus Lift – Fire Headquarter Shop: \$160,000

This capital item will replace the current 8 apparatus lifts used to work on fire apparatus, ambulances, and council on aging vehicles.

SCBA Replacement – Citywide: \$975,000

Replace all 68 Self-Contained Breathing Apparatus (SCBA) units across the City. There is grant funding available for this equipment replacement that has a 5% match requirement.

Turnout Gear: \$1,207,500

There was a large set of gear bought in 2017, with a 10-year useful life. We now try to buy new gear in smaller bulks within the operating budget to avoid one year of a large financial burden. However, we need about 100 sets in 2027 and will try to start breaking that up with buying half this fiscal year and half next.

Fleet Replacement: \$7,655,000

Systematic replacement of Fire Engines and fleet. This project will start off replacing Engine Company 2 at 165 Bedford Street. We are also looking to add one truck as a backup to start, in future years replaced trucks will become the replacements. See the included Fleet Replacement Schedule for additional details.

Robert L. Medeiros Resiliency Preparatory Academy

Windows & Doors: \$8,081,309

This project will provide energy savings and curb appeal to this 98-year-old Historic Building. This project will also add another layer to improve the envelope of the building. Windows & Doors Replacement Project City contribution to this MSBA Project is \$1,600,000. With cost savings in the original scope, we will be adding in renovation of the original elevator to provide handicapped accessibility to all 6 floor levels with the building.

Fire Suppression System: \$4,245,000

Installation of Fire Suppression System. This will bring the building closer to full compliance of a building this size which is occupied as a school.

Electrical Upgrade: \$2,970,000

Upgrade electrical system throughout the building. The majority of the electrical system in this building is original equipment.

Plumbing Upgrade: \$3,800,000

Upgrade plumbing and drainage system throughout the building. The majority of the plumbing system in this building is original equipment. The Building does not meet the current sanitary or plumbing code.

Asbestos Remediation: \$500,000

Asbestos remediation as needed and feasible. The building requires renovations of plumbing, electrical and carpentry in various locations throughout the building abatement will be necessary in some of those projects.

Lighting: \$905,000

Ceiling and lighting project to install lighting, grid and acoustic tiles.

William S. Greene Elementary School

HVAC: \$4,500,000

HVAC upgrades including a Building Maintenance Systems for heating and cooling controls and air quality Improvements. This is mostly funded with external sources from CEC (Clean Energy) Grant \$2.9M, plus \$1M from National Grid.

Roof Replacement: \$2,770,000

The roof is a combination of flat and vaulted roof construction, consisting of asphalt shingles and rubber materials. This roof is 21 years old and needs complete replacement. This is eligible for the MSBA Accelerated Repairs Program.

Edmond P. Talbot Middle School

Fire Suppression System: \$3,055,800

Install Fire Suppression System. This will bring the building closer to full compliance of a building this size which is occupied as a school.

Window Replacement: \$3,090,000

The window project at Talbot is limited in funding opportunities. The project should be funded over three years to allow summer work only. Completing this project during summer breaks is the best approach.

Plumbing Upgrade: \$890,000

Upgrade plumbing and drainage system throughout the building. The majority of the plumbing system in this building is original equipment vintage 1972, 53 years old. The plumbing meets the current sanitary and plumbing code, needs updating.

Interior Doors: \$265,000

The interior doors in the building are 53 years old and need to be replaced including all hardware.

Auditorium: \$755,000

Auditorium renovation to install a new sound system and lighting upgrade. Reupholster seating and bring the entire room to ADA standards. The auditorium is outdated; rental equipment must be used to have functions at this venue. The lighting is also outdated. The seating has signs of aging and major wear.

Westall Elementary School

Window Replacement: \$2,070,000

Due to the age of this building, the windows are at the end of their useful life and need replacement. This is eligible for the MSBA Accelerated Repairs Program.

Central Air: \$3,330,000

Installation of central air conditioning with dehumidification equipment and a BMS component included. The installation of central air conditioning and complete building dehumidification is imperative to improve indoor air quality in our schools. This should be eligible for the MSBA Accelerated Repairs Program.

Playground Retaining Wall: \$2,183,000

Retaining wall project on School Street side of the property (West) to allow for a level play area and outdoor gym. The property at 276 Maple street is a very steep slope which makes any kind of recess activity limited. This slope also limits parking on site which causes further parking concerns during pickup and drop-off times of the day.

Frank M. Silvia Elementary School

Access Road: \$2,080,000

This is to create a second means of egress access road. It will bring the building closer to full compliance of a building this size which is occupied as a school.

Roof Replacement: \$2,770,000

This is for a complete replacement of the roof at the end of its useful life. This is eligible for the MSBA Accelerated Repairs Program.

James Tansey Elementary School

Fire Suppression System: \$1,200,000

Installation of Fire Suppression System. This will bring the building closer to full compliance of a building this size which is occupied as a school.

Former Bishop Connolly School

Purchase Land & School: \$29,800,000

55-acre property with a 136,622 square foot educational facility. It will provide significant flexibility to address multiple long-term district needs. The existing layout and core systems reduce cost and construction timelines compared to a new build that was previously in the CIP. Potential uses include relocation of programs, expansion of athletic fields and outdoor learning spaces, potential for community use and rental, relocation of the districts centralized distribution center, and creation of a central kitchen.

Facility Improvements: \$7,200,000

Upon acquisition it is estimated that about \$300k will be necessary to convert the space permanently to Fall River Public Schools needs and standards. The roof will need to be replaced shortly after acquisition. We will submit the project for MSBA Accelerated Repairs funding in January 2027.

George B. Stone Day School and Fall River Learning Center

Central Air & Electrical Upgrade: \$2,000,000

Installation of central air conditioning with dehumidification equipment on the second and third floors with the addition of a BMS component included. The installation of central air conditioning and complete building dehumidification is imperative to improve indoor air quality in our schools. Upgrade of the electrical system to accommodate the heat pump air conditioning system on the second and third floor in the building. The heat pumps are a clean fuel technology which will deliver rebates to the project.

District Administration Building

Central Air & Electrical Upgrade: \$1,000,000

Installation of central air conditioning with heat pump technology and use the National Grid/Liberty rebate program. The installation of central air conditioning is imperative to the CPA funding requirement for the 72-window replacement project currently underway. Upgrade of the electrical system to accommodate the heat pump air conditioning system in the building. The heat pumps are a clean fuel technology which will deliver rebates to the project.

All Buildings, except BMC Durfee

Update Interior & Exterior Cameras: \$1,890,000

The camera technology is changing rapidly, and the networks have as well. The District relies on cutting-edge safety and security technology to keep our students and staff safe.

EMS Enterprise Fund

Fleet Replacement: \$5,429,724

Systematic replacement of fleet of Medical Rescues and staff vehicles. See the included Fleet Replacement Schedule for additional details.

Monitor Replacement: \$224,523

This includes the final year of lease payment in fiscal year 2026, with future replacement purchases.

Space Improvements: \$3,292,000

This is for the new, additional building to house the expanded EMS services and for repairs and renovations of existing stations. There is a current license to purchase with annual payments, as well as capital assets that have been acquired to outfit the new space from the existing loan authorization. The details of the renovations of existing stations can be found under the Facilities section, which is listed as External Source, as it is covered with the debt here.

Personnel Protective Equipment: \$200,000

This includes replacement of existing protective equipment and additional new equipment as needed.

Financial Forecast and Impact

The following tables and charts illustrate how this plan works with the current 5-Year Forecast, Debt Schedule, and financial indicators for the General Fund.

Debt Analysis

Massachusetts General Law allows cities to authorize indebtedness by a two-thirds vote; within the law there are definitions on the debt and limitations on how much debt we can authorize without additional steps being taken. The current limit is 5% of the most recent equalized valuation (EQV) that are updated biennially by the Department of Local Services. The Department of Revenue defines fiscal stress from debt when we hit 4% of the EQV.

	2026	2027	2028	2029	2030	2031
Existing Debt	<u>\$141,006,167</u>	<u>\$131,798,900</u>	<u>\$122,261,283</u>	<u>\$113,384,537</u>	<u>\$104,567,100</u>	<u>\$98,220,810</u>
<i>New Issues</i>	<i>0</i>	<i>29,800,000</i>	<i>48,436,800</i>	<i>70,994,050</i>	<i>85,258,336</i>	<i>98,684,897</i>
